

considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health safety determinations which show that use of (*E*)-5-decenyl acetate, (*E*)-5-decenol, and clarified hydrophobic extract of neem oil when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on these registrations is contained in a Pesticide Fact Sheet on (*E*)-5-decenyl acetate, (*E*)-5-decenol, and clarified hydrophobic extract of neem oil.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.

List of Subjects

Environmental protection, Pesticides and pests, Product registration.

Dated: October 11, 1995.

Janet L. Andersen,

Acting Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.

BILLING CODE 6560-50-F

[OPP-30348A; FRL-4984-5]

E.I. DuPont de Nemours and Company; Approval of Pesticide Product Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of applications to conditionally register the pesticide products Fortress Technical, Fortress 5G Granular Insecticide, and Fortress 2.5G Granular Insecticide; containing a new active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Dennis H. Edwards, Product Manager (PM 19) Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 207, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703)-305-6386; e-mail: edwards.dennis@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the Federal Register of February 18, 1993 (58 FR 8945), which announced that E.I. du Pont de Nemours and Company had submitted applications to register the pesticide products Fortress Technical and Fortress 5G Granular Insecticide containing the active ingredient, chlorethoxyfos.

The company later submitted an application to register Fortress 2.5G Granular Insecticide (File Symbol 352-LTO). However, since the notice of receipt did not publish in the Federal Register as required by FIFRA, as amended, interested parties may submit written or electronic comments within 30 days after date of publication for this product only.

The applications were approved as conditional registrations on September 18, 1995, for a 3-year period, to control northern, western, and southern corn rootworms, wireworms, cutworms, seedcorn maggots, white grubs and symphylans (EPA Registration Numbers 352-553, 352-552, and 352-579 respectively).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking, on the condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7;

that use of the pesticide during the conditional registration period will not cause unreasonable adverse effects; and, that use of the pesticide is in the public interest.

The Agency has considered the available data on the risks associated with the proposed use of phosphorothioic acid, *O,O*-diethyl *O*-(1,2,2,2-tetrachloroethyl) ester and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency has considered the nature of its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of phosphorothioic acid, *O,O*-diethyl *O*-(1,2,2,2-tetrachloroethyl) ester during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is in the public interest.

Consistent with section 3(c)(7)(C), the Agency has determined that this conditional registration is in the public interest. Use of the pesticide is of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticide will not result in unreasonable adverse effects to man and/or the environment.

More detailed information on these conditional registrations is contained in a Pesticide Fact Sheet on chlorethoxyfos (Fortress).

A copy of the Fact Sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved labels and the list of data references used to support registration are available for public inspection in the office of the Product Manager (PM). The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202, (703)-305-5805. Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A101), 401 M St.,

SW, Washington, D.C. 20460. Such requests should: (1) identify the product name and registration number, and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.

Pesticide Tolerance Petitions; Filings and Amendments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces initial filings and amendments of pesticide petitions (PP) and food and feed additive petitions (FAP) proposing the

establishment of regulations for residues of certain pesticide chemicals in or on various agricultural commodities.

ADDRESSES: By mail, submit written comments to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA 22202.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m.,

Monday through Friday, excluding legal holidays.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [PF-635]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this document may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found below in this document.

FOR FURTHER INFORMATION CONTACT: By mail: Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, contact the PM named in each petition at the following office location/telephone number:

Product Manager	Office location/telephone number/e-mail	Addresses
George LaRocca (PM 13)	Rm. 204, CM #2, 703-305-6100; e-mail: larocca.george@epamail.epa.gov..	1921 Jefferson Davis Hwy., Arlington, VA.

SUPPLEMENTARY INFORMATION: EPA has received pesticide petitions and food/feed additive petitions as follows proposing the amendment of regulations for residues of certain pesticide chemicals in or on various agricultural commodities.

Initial Filings

1. *PP 5E4516*. Monsanto Co., 700 Chesterfield Parkway North, St. Louis, MO 63198, has submitted the petition requesting that 40 CFR part 180 be amended to establish an exemption

from the requirement of a tolerance for the plant pesticide formulation inert ingredient 5-enolpyruvylshikimate-3-phosphate synthase from *Agrobacterium* sp. strain CP4 (CP4 EPSPS) and the genetic material necessary for the production of this protein in or on all raw agricultural commodities when used as a plant-pesticide inert ingredient. (PM 90)

2. *PP 5E4517*. Northrup King Co., 7500 Olson Memorial Hwy., Golden Valley, MN 55427, has submitted the petition proposing that 40 CFR 180.1001

be amended to establish an exemption from the requirement of a tolerance for the inert plant pesticide ingredient phosphinothricin acetyltransferase (PAT) as produced in corn by the PAT gene and its controlling sequences as found on plasmid vector pZO1502. Its use will be as a selection tool. (PM 90)

3. *PP 5F04445*. Champon 100% Natural Products, Inc., 10528 Mendocino Lane, Boca Raton, FL 33428, proposes that 40 CFR part 180 be amended to establish an exemption from the requirement of a tolerance for
